Meeting Objective: The EIM Regional Issues Forum is organized by ten self-selected sector liaisons who meet periodically to solicit input and encourage participation from respective sectors on the topics and content not currently part of an ongoing ISO stakeholder process. The forums provide stakeholders and interested parties with an opportunity to openly discuss broad issues related to the EIM in a public setting. The forum may produce documents or opinions for the benefit of the EIM Governing Body, ISO Board of Governors, and the California ISO.
