

## **STATEMENT OF INTEREST**

I am Director, FERC & ISO Relations for PG&E. I have held this position for 15 years. I am interested in being on the EIM Governance Review Committee.

I have 37 years of energy industry experience. During my 15 years in this position I have been responsible for PG&E's relationship with the CAISO and I have been engaged representing PG&E in every significant policy matter at the CAISO during this period. I am very familiar with CAISO and EIM governance policy and issues including serving on the CAISO Board Nominee Review Committee for over 10 years.

I would appreciate the opportunity to serve on the EIM Governance Review Committee.
