Re: Nominee Kellie Macpherson for the EIM Transitional Committee

Dear Chairman Foster:

I am writing on behalf of the Large-scale Solar Association (LSA) to support the nomination of Kellie Macpherson for the Energy Imbalance Market (EIM) Transitional Committee. LSA is a non-partisan, solar advocacy association whose purpose is to support market penetration of utility-scale solar technologies.

LSA has had the pleasure of working with Ms. Macpherson in her role as Compliance Manager for Recurrent Energy. Kellie will not only bring the on-the-ground perspective of a solar developer to the Transitional Committee, but deep knowledge of both the complex regulatory requirements and the energy markets across the west — both critical to the EIM's success. This diverse background makes her an ideal representative for renewable energy developers on the EIM Transitional Committee.

Kellie and Recurrent Energy have also proven themselves to be effective partners, working closely with other members of our organization to pursue common goals and address challenges. In addition, she applies this engaged, collaborative approach to her work with broader energy industry organizations, including the Advanced Energy Economy (AEE), the Center for Energy Efficiency and Renewable Technologies (CEERT), Western Interconnection Compliance Forum, and the North American Generator Forum. Her demonstrated ability to work with diverse stakeholders will be an asset to the Transitional Committee.

For these reasons we strongly support Kellie Macpherson as a nominee for the Transitional Committee. Thank you for your consideration of our views.

Sincerely,

A handwritten signature in black ink that reads "Shannon Eddy". The signature is fluid and cursive, with the first name being more prominent.
