To whom it may concern:

Statement of Interest for RIF Western EIM Entity Liaison

I am writing to express my interest in serving as a Regional Issues Forum Liaison for the Western EIM Entity sector.

Since NV Energy began participation in the EIM in 2015, I have been involved in seeking to improve EIM benefits for customers. These efforts have included involvement in the CAISO stakeholder process, coordination with other EIM Entities, and outreach efforts to regulators and other stakeholders.

In my current role as the market policy manager, I represent NV Energy and participate in the CAISO stakeholder process. In this role, I have been able to advocate for NV Energy while working collaboratively with other external stakeholders. In addition, I have held previous roles within Transmission, Merchant, and Generation, working on a wide range of projects that expands from updating the Open-Access Transmission Tariff to testing generators and operations in preparation for the EIM.

I believe my experience has afforded me a unique perspective of the EIM in which I would like to carry forward as a Liaison for the RIF.

Sincerely,

Lindsey Schlekeway  
Market Policy Manager
