

WESTERN ENERGY IMBALANCE MARKET

Briefing on Proposed Revisions to Decisional Classification Rules

Roger Collanton

Vice President, General Counsel, Chief Compliance Officer &
Corporate Secretary

EIM Governing Body Meeting

General Session

March 12, 2019

Introduction and Overview of Proposal

- The Charter for EIM Governance contemplates a review of EIM governance by no later than 2020.
 - EIM Governing Body commenced this review late last year.
- The proposal on decisional classification rules is the first step in the EIM governance review.
 - Proposal: Primary authority of EIM Governing Body would be expanded incrementally to include proposed changes to generally applicable real-time market rules if the primary driver for the change is EIM.
- There is broad stakeholder support for this proposal.
- Proposal is subject to Governing Body's advisory input.
