**Statement of Interest - Regional Issues Forum
Participating Transmission Owner Sector Liaison**

To Whom It May Concern,

I am writing to express my interest in the role of Liaison for the CAISO Participating Transmission Owner (PTO) sector to the Energy Imbalance Market (EIM) Regional Issues Forum (RIF).

Southern California Edison (SCE) is an investor-owned public utility primarily engaged in the business of supplying and delivering electricity to an approximately 50,000 square mile area of southern California. SCE owns and operates transmission, distribution, and generation facilities for the purpose of serving its customers' electricity needs. SCE transferred operational control over its transmission facilities to the CAISO on April 1, 1998, and is a Participating Transmission Owner in the CAISO Balancing Authority Area. Additionally, since the inception of EIM, SCE has played an active role in stakeholder processes focused on the development and evaluation of various EIM policy initiatives and issues.

As the Principal Manager of Market Design and Resource Integration at SCE, I am responsible for the company's efforts in electricity market design and policy strategy, including the oversight of SCE's participation in EIM stakeholder policy efforts. In my previous nineteen years at SCE, I have worked in a variety of regulatory, system planning, and finance & economics roles, including overseeing the development of SCE's first integrated resource plan and serving as witness for post-test year ratemaking in SCE's 2021 and 2025 general rate cases.

In this role, I plan to bring my breadth of experience in the electric industry along with an interest in the further development and evolution in electricity markets in the West as a representative of the PTO sector. Specifically, the refresh of the CAISO's catalog process as well as working group efforts focused on greenhouse gas emissions accounting and scarcity pricing hold a particular interest.

I look forward to the opportunity to represent the sector and SCE in this Forum. Thank you for your consideration,

Best Regards,

Jonathan Rumble
